

Library Update

No.11, 21st June, 2021

Resource in focus: ClinicalKey

ClinicalKey provides clinicians, nurses and allied health professionals with access to ebooks, ejournals and other point of care resources and tools

Access

Go to [ClinicalKey](#) directly, or use the link from the Library's list of [databases](#). Remote access requires an [OpenAthens](#) login.

ClinicalKey is optimized for mobile devices, or you can use the App available on [Android](#) and [iOS](#) formats for mobile phone and tablet.

Searching

Search results will include full text journal articles, Medline references (may not be full text), ebook chapters, books, patient education information, drug information, videos, images and guidelines.

You can narrow your search results by source type, specialty, or date.

Enter a natural language search term into any *Search* field. There is no support for Boolean operators, truncation/wildcard (*), or parentheses (), but you can use quotes for "exact phrase".

Create a personal account for extra benefits

With a personal account (be sure to use your campus email address when registering) you can save your search and search history (including filters), and download books and book chapters.

Clinical Overviews

[These evidence-based summaries](#) cover a variety of topics which are updated monthly. Sources for the Clinical Overviews include journal articles, books, clinical practice guidelines, Cochrane reviews and more. Some recently added or updated topics are:

- [Acute lymphoblastic leukemia in children](#)
- [Anorexia nervosa](#)
- [Allergic bronchopulmonary aspergillosis](#)
- [Bacterial meningitis in children](#)
- [Conjunctivitis](#)
- [Down syndrome](#)
- [Epilepsy in children](#)
- [Fragile X syndrome](#)
- [Otitis externa](#)
- [Urinary tract infection in children](#)
- [Vitamin D deficiency in children](#)

Paediatric Handbook: 10th edition now available online

The library now has online access to this book with a three-user concurrent license

You can [read the entire book online](#) in your browser, or download and print selected chapters (60-page limit). Remote access requires an [OpenAthens](#) login.

Create a personal account to download and 'borrow' the entire book. See Ebsco's instructions on [how to download ebooks](#) to your computer or [how to download ebooks on the Ebsco mobile app](#).

Library Update

BMJ Best Practice – latest updates

BMJ Best Practice brings a step-by-step approach to decision support. It is structured around the patient consultation, covering diagnosis, prognosis, treatment, and prevention.

We recommend this resource as an alternative to UpToDate.

Recently updated topics:

- [Animal bites](#)
- [Assessment of chronic cough](#)
- [Assessment of rash in children](#)
- [Autism spectrum disorder](#)
- [Coronavirus disease 2019 \(COVID-19\)](#)
- [Ehlers-Danlos syndrome](#)
- [Epistaxis](#)
- [Management of coexisting conditions in the context of COVID-19](#)
- [Measles infection](#)
- [Sepsis in children](#)

[Download the BMJ Best Practice app](#) for access to BMJ's trusted clinical information, whenever and wherever you need it.

Library Training: charges reduced!

Most Library Training sessions are now free of charge, across campus. The exception is EndNote sessions which still attract a small cost.

If you can't make it to the scheduled sessions, [contact us](#) to arrange individual or group sessions at a time that suits you. Charges apply for some Library training. [See the Library website](#) for full session details.

Coming sessions

Nursing & Allied Health Thursday 24 June, 9:00 am
Cochrane Library Thursday 15 July, 9:30 am
EndNote Tutorial 1 Monday 21 June, 12:00 pm
EndNote Tutorial 2 Monday 28 June, 12:00 pm
EndNote Demonstration Wednesday 25 August, 5:00 pm
Finding the Evidence Tuesday 20 July, 9:00 am
Introduction to the Library Thursday 29 July, 12:00 pm
Ovid Medline Thursday 15 July, 11:00 am
PubMed Monday 19 July, 10:00 am

1000 Library Facts: #27

Opening hours and Library access

The Library is staffed Monday to Friday, 9.00 am to 4.00 pm. Outside of these hours use your ID to swipe for entry and exit via the front or rear doors. No materials may be taken from the Library out of hours.

Wellbeing and appreciation events

- 2021 – [International Year of Health and Care Workers](#)
- 2021 – [International Year of Peace and Trust](#)
- June – [National Burns Awareness Month](#)
- June 21 – [Motor Neuron Disease Global Day](#)
- June 21 – [International Day of Yoga](#)
- July – [Dry July](#)
- July 4 – [NAIDOC Week](#)
- July 11 – [National Diabetes Week](#)
- July 12 – [Malala Day](#)
- July 22 – [Fragile X Awareness Day](#)
- July 24 – [Stress Down Day](#)
- July 25 – [Donate Life Week](#)
- July 28 – [World Hepatitis Day](#)

Search Tip: Google and Google Scholar phrase searching

Enclose your search terms in quotation marks to search for an exact phrase, for example:

"sleep disorders in children"

You can add an *OR*, or use | (the pipe character) within the phrase to find variations, for example:

"sleep disorders | apnea in children"

... will retrieve ...

"sleep disorders in children" OR "sleep apnea in children"

EndNote Tips and Database Search Tips on the Library website

Each issue of the *Library Update* includes a handy tip for database searching or for using EndNote. We've brought all these tips together and made them available on the Library website.

[Database search tips](#) include: understanding the difference between keyword searching and thesaurus searching; how to use wildcard truncation; using explode and focus to modify search results; how to use filters and limits; saving and editing your searches; and using Boolean operators.

[EndNote tips](#) include: file handling and upgrades; dealing with duplicate references; using Manuscript templates; backing up and transporting your library; importing PDFs; sync and sharing; finding full text; exporting references from databases; and working with Word documents.

Library Update

AIHW: latest reports

Aboriginal and Torres Strait Islander specific primary health care: results from the nKPI and OSR collections

Information on organisations funded by the Australian Government under its Indigenous Australians' Health Programme (IAHP) to deliver culturally appropriate primary health care services to Aboriginal and Torres Strait Islander people is available through two data collections—the Online Services Report (OSR); and the national Key Performance Indicators (nKPI).

This report presents the latest results from these collections. [Read the report.](#)

Cancer data in Australia

This report provides cancer statistics and data visualisations to inform understandings of cancer in Australia and how rates have been changing over time.

The report includes a range of statistics on cancer survival, incidence, mortality and risk for over 70 different cancers with data spanning back to 1982 for cancer incidence and 1971 for cancer mortality. [Read the report.](#)

MyHospitals Update (Admitted patient care 2019–20)

The MyHospitals national reporting platform allows users to explore information about their local hospital

and Local Hospital Network (LHN), as well as trends across Australia.

The content that has been updated is relating to: admitted patient care 2019–20; new analyses on how COVID-19 affected admitted patient care. Read the report. [Read the report.](#)

National Partnership on Essential Vaccines: performance report 2019–20

This report provides an assessment of state and territory performance against the performance benchmarks outlined in the National Partnership on Essential Vaccines, for the assessment period 1 April 2019 to 31 March 2020.

The report shows that 2 jurisdictions met all benchmarks assessed in this period, with the remaining jurisdictions each not meeting or only partly meeting at least one benchmark. [Read the report.](#)

Stillbirths and neonatal deaths in Australia 2017–2018

Australia is one of the safest places in the world for a baby to be born, yet death occurring within the perinatal period is not uncommon.

Every day in Australia, 6 babies are stillborn and 2 die within 28 days of birth (neonatal death). [Read the report.](#)

New *Changing face of Victoria* exhibition at the State Library of Victoria

Explore the spirit of activism and invention, and its impact on modern Victoria, through four everyday themes: water, workers' rights, camping and coffee

The new [Changing face of Victoria](#) exhibition features more than 150 objects, artworks and photographs

that reveal the large and small ways we can all make a difference in shaping our world. 90 percent of these collection items have never been exhibited before.

Visit onsite, or [explore the online exhibition](#), including curator insights and a virtual tour.

Health and Science News

- **Measures limiting spread of COVID-19 led to decrease in kids being hospitalised for infections:** Researchers found a 65% reduction in infection-related hospitalisations among children in the seven months following the introduction of pandemic infection control strategies. [Read more](#) [source: scimex.org]
- **The human genome is—finally!—complete:** The Human Genome Project left 8% of our DNA unexplored. Now, for the first time, those enigmatic regions have been revealed. [Read more](#) [source: theatlantic.com]
- **The authorship rows that sour scientific collaborations:** One suggestion is to have a scientific 'pre-nup', or team charter, spelling out roles, responsibilities and processes for conflict resolution in advance. [Read more](#) [source: nature.com]
- **Largest-ever pre-adolescent brain activation study reveals cognitive function maps:** The brain maps aim to improve scientists' understanding of the psychological processes that put young people at higher risk for developing mental and physical health challenges. [Read more](#) [source: eurekalert.org]
- **Newborns on ventilators can now be better protected from a common breathing tube incident:** A medical device could save babies' lives by helping to keep their breathing tubes at the correct depth. [Read more](#) [source: eurekalert.org]
- **Hush little baby don't say a word... Giving a voice to child victims of family abuse and neglect:** Children with documented child protection concerns are four times as likely to die before they reach their 16th birthday, according to confronting new research. [Read more](#) [source: scimex.org]
- **Powerful new COVID-19 vaccine shows 90% efficacy, could boost world's supply:** The vaccine uses a protein of SARS-CoV-2, a different technology from the COVID-19 vaccines authorized so far, and delivered 90.4% overall efficacy against symptomatic COVID-19 infections, and 100% protection against moderate and severe disease. Against eight viral variants of interest and concern, its efficacy was 93.2%. [Read more](#) [source: sciencemag.org]
- **Stop healthcare workplace violence:** Work-related violence has a devastating impact on workers and can cause severe mental and physical injuries. [Read more](#) [source: healthtimes.com.au]
- **Children must be vaccinated against COVID-19:** "With more contagious variants of concern, vaccinating children may be the only route to herd immunity". [Read more](#) [source: scimex.org]
- **Common lung infection in infants has different subtypes with differing asthma risks:** A team led by investigators at Massachusetts General Hospital (MGH) has uncovered four distinct molecular subtypes of RSV bronchiolitis and has linked a certain subtype to a higher asthma risk. [Read more](#) [source: eurekalert.org]
- **Big data helps assess seizure burden, improve outcomes in pediatric epilepsy patients:** CHOP is the only center to capture standardized clinical data from ongoing patient care. [Read more](#) [source: eurekalert.org]
- **Preliminary genetic link to developmental coordination disorder, dyspraxia identified:** Despite the condition affecting five per cent of children, as common as dyslexia or autism, very little is known about why some children struggle with motor coordination. [Read more](#) [source: eurekalert.org]
- **Food that boosts gut microbes could be a new way to help malnourished kids:** Malnourished children fed the new food did better than those who got traditional supplements. [Read more](#) [source: sciencenews.org]
- **Nintendo Wii therapy may help improve balance in kids with cerebral palsy:** "Virtual reality-based rehabilitation using Nintendo® Wii is considered a multi-sensory and active therapy that encourages the child's participation, increasing motivation and adherence to therapy due to its playful nature". [Read more](#) [source: scimex.org]
- **Total bedrest after a concussion could do more harm than good:** Moderate exercise in the first week after a concussion is more helpful for recovery than strict rest, according to a new consensus statement by a US concussion expert panel. [Read more](#) [source: scimex.org]
- **Neuroscientists have discovered a phenomenon that they can't explain:** "Scientists are meant to know what's going on, but in this particular case, we are deeply confused". [Read more](#) [source: theatlantic.com]
- **Got the jab, bought the T-shirt: 'vaxinistas' and the rise of pandemic merchandise:** Like fans after a gig, people are broadcasting being vaccinated with branded merchandise, while vintage 'pharma-merch' is going for high prices on eBay. [Read more](#). [source: theguardian.com]
- **Researchers create quantum microscope that can see the impossible:** This paves the way for applications in biotechnology, and could extend far beyond this into areas ranging from navigation to medical imaging. [Read more](#) [source: scimex.org]
- **Superhero-inspired hospital shirt helps sick kids:** The Supertee is a cleverly designed medical garment with unclippable seams and a superhero vibe that's been a hit with nurses, parents and sick kids. [Read more](#) [source: healthtimes.com.au]
- **Childhood cancer discovery may stop tumor spread before it starts:** Researchers have learned that Ewing sarcoma cells are able to develop a shield that protects them from the harsh environment of the bloodstream and other locations as they search for a new place to metastasize. [Read more](#) [source: sciencedaily.com]

BOOKS

[online]

[Bradley and Daroff's Neurology in clinical practice](#) / edited by Joseph Jankovic ... [et al.]. 8th edition. Elsevier, 2022

A practical, dynamic resource for practicing neurologists, clinicians and trainees, Bradley and Daroff's Neurology in Clinical Practice, Eighth Edition, offers a straightforward style, evidence-based information, and robust interactive content supplemented by treatment algorithms and images to keep you up to date with all that's current in this fast-changing field.

This two-volume set is ideal for daily reference, featuring a unique organization by presenting symptom/sign and by specific disease entities—allowing you to access content in ways that mirror how you practice.

More than 150 expert contributors, led by Drs. Joseph Jankovic, John C. Mazziotta, Scott L. Pomeroy, and Nancy J. Newman, provide up-to-date guidance that equips you to effectively diagnose and manage the full range of neurological disorders.

[online]

[Paediatric handbook](#) / edited by Kate Harding, Daniel S. Mason, Daryl Efron. Wiley-Blackwell, 2021

The Royal Children's Hospital Melbourne *Paediatric Handbook* is a trusted guide to managing common and serious childhood illnesses and disorders. This bestselling resource provides students and practitioners across medical, nursing, and allied health fields with authoritative and up-to-date information

on a comprehensive range of paediatric topics, enabling readers to make the appropriate decisions at the point of care.

[online]

[Shared struggles: stories from parents and pediatricians caring for children with serious illnesses](#) / edited by Ann F. Schrooten, Barry P. Markovitz. Springer, 2021

This book tells true and poignant stories from both sides of the physician-patient/parent relationship and provides a unique glimpse into how parents and physicians think, feel, and interact. The stories are grouped under four sections: Hope, Compassion,

Communication, and Trust. Each section includes stories contributed by parents from all across the United States and by pediatricians practicing at many of the best children's hospitals throughout the country.

The parents tell of interactions with physicians that had a significant impact on them and their child and offer context and insight that promote empathy and reflection. The physicians tell of interactions with patients and families that served as learning moments in their career and promote the humanization of medicine and show there is more to a physician beyond their scientific knowledge and white coat.

The stories are edited by Barry P. Markovitz - a pediatrician specializing in critical care medicine who has been in practice for more than 20 years and by Ann F. Schrooten - the parent of a child born with a chronic complex condition who has more than 15 years of experience interacting with pediatric subspecialists and other healthcare professionals who cared for her son. The editors have written commentaries to the stories to provide an independent perspective on the events and messages conveyed and to encourage reflection, inquiry, and discussion.

[Transitioning care from pediatric to adult pulmonology: ensuring best practices and optimal outcomes](#) / edited by Cynthia D. Brown, Erin Crowley. Springer, 2021

This book addresses an unmet need in the care of adolescents and young adults with lung disease. The increasing survival of young adults with childhood-onset pulmonary conditions is a testament to major advances in treatments and health care delivery.

With the increase in survival of children with chronic respiratory conditions, there is a need for formalized transition programs to integrate adolescents and young adults into the adult model of care. This book helps fill gaps in knowledge to best achieve that initiative.
