

Library Update

No.18, 27th September, 2021

Our new catalogue is live!

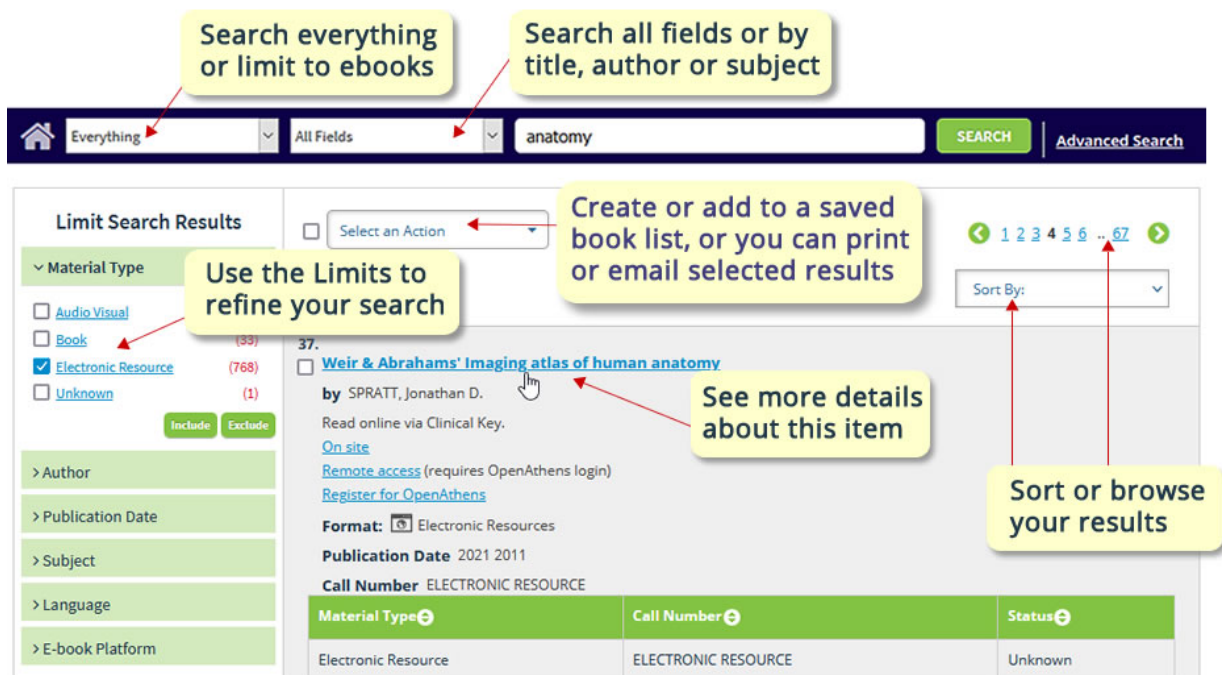

The [new Library catalogue](#) is now available for campus staff and students to search our book collections

It's much easier to use, has more functionality, and has a more modern look and feel, including mobile responsiveness.

We're still ironing out a few kinks in the backend data, so bear with us as we make adjustments and improvements over the coming days and weeks.

In coming Library Updates we'll be giving you lots of tips and hints on how to use all the great new features.

We'd like to give a huge shout out to several ICT staff who spent many hours over many months helping us bring this project home. In what was already a busy year for everyone we really appreciated their expertise and guidance in all things security and infrastructure. You know who you are ... thanks!

Australia's welfare 2021 released by AIHW

This is the AIHW's 15th biennial welfare report

It explores topical welfare issues and brings together multiple data sources to serve as a report card on the welfare of Australians. Australia's welfare is framed around 'welfare' in its broadest sense—welfare refers to the wellbeing of individuals, families and the community.

[Australia's welfare 2021](#) continues the series' recent departure from a single large print publication towards a more accessible multi-product release consisting of a comprehensive web presence and leaner print publications.

The 2021 release comprises four products that together make up Australia's welfare 2021:

- [Australia's welfare 2021: data insights](#) is a collection of articles on selected welfare topics, including an overview of the welfare data landscape, and contributions by academic experts.

- [Australia's welfare snapshots](#) are 43 web pages that present key facts on housing, education and skills, employment and income, social support, justice and safety, and Indigenous Australians. These are updated when new data are available.

- [Australia's welfare 2021: in brief](#) presents key findings and concepts from the snapshots and data insights to tell the story of welfare in Australia.

- [Australia's welfare indicators](#) is an interactive data visualisation tool that measures welfare system performance, individual and household determinants and the nation's wellbeing.

Australia's welfare 2021 is released at a difficult time. While the COVID-19 pandemic has thus far not had the extreme effects it has in many other countries, its impact in Australia has been – and continues to be – considerable, touching nearly all people and aspects of life.

Australia's welfare 2021 tells part of the nation's pandemic story, from the start of the pandemic in Australia to early- to mid-2021.

Wellbeing and appreciation events

2021 – [International Year of Health and Care Workers](#)

2021 – [International Year of Peace and Trust](#)

September – [Childhood Cancer Awareness Month](#)

September 29 – [World Heart Day](#)

October 1 – [Health Literacy Month](#)

October 6 – [World Cerebral Palsy Day](#)

October 8 – [World Sight Day](#)

October 10 – [World Mental Health Day](#)

October 11 – [Anti-Poverty Week](#)

October 11 – [National Carers Week](#)

October 16 – [World Food Day](#)

October 17 – [International Infection Prevention Week](#)

October 20 – [Pharmacy Technician Day](#)

October 23 – [Children's Week](#)

October 28 – [Blue Knot Day](#)

EndNote Tip: Export from Covidence into EndNote

1. In Covidence [export in EndNote format](#).
2. In EndNote go to *File/Import* and import as a RIS file:

The screenshot shows the 'Export' interface in Covidence. At the top, there is a back arrow and the word 'Export'. Below this, there are two tabs: 'Export to file' (selected) and 'Export to RevMan 5'. A message states: 'References will be exported as an RIS formatted text file or CSV for Excel.' There are two dropdown menus: 'Category' set to 'Screen' and 'Format' set to 'Endnote'. A red box highlights the 'Format' dropdown and the 'Export' button. A red arrow points from the 'Export' button to the 'Choose...' button in the 'Import File' section of the EndNote interface below. The 'Import Option' dropdown is set to 'RefMan RIS'.

Cochrane Library: new items

Access

Select *Cochrane Library* from the library's list of [databases](#), and just start searching.

A registered login allows you to save search histories for future use. Go to *Advanced Search* to log in or register for an account.

Recently added items

Special Collections:

- Stillbirth prevention and respectful bereavement care. [Read now](#)

New Cochrane Database of Systematic Reviews:

- Behavioural and cognitive behavioural therapy for obsessive compulsive disorder (OCD) in individuals with autism spectrum disorder (ASD). [Read now](#)
- Chloral hydrate as a sedating agent for neurodiagnostic procedures in children. [Read now](#)
- Heliox for croup in children. [Read now](#)
- High-dose chemotherapy followed by autologous haematopoietic cell transplantation for children, adolescents, and young adults with first recurrence of Ewing sarcoma. [Read now](#)
- High-dose chemotherapy followed by autologous haematopoietic cell transplantation for children, adolescents, and young adults with primary metastatic Ewing sarcoma. [Read now](#)
- Ivermectin for preventing and treating COVID-19. [Read now](#)
- Physical therapy interventions, other than general physical exercise interventions, in children and adolescents before, during and following treatment for cancer. [Read now](#)
- Point-of-care tests detecting HIV nucleic acids for diagnosis of HIV-1 or HIV-2 infection in infants and children aged 18 months or less. [Read now](#)
- Remdesivir for the treatment of COVID-19. [Read now](#)
- SARS-CoV-2-neutralising monoclonal antibodies for treatment of COVID-19. [Read now](#)
- Systemic corticosteroids for the treatment of COVID-19. [Read now](#)
- Timing of pancreatic enzyme replacement therapy (PERT) in cystic fibrosis. [Read now](#)

- Recombinant growth hormone therapy for cystic fibrosis in children and young adults. [Read now](#)

New Protocols:

- The impact of growth monitoring and promotion on health indicators in children under five years of age in low- and middle-income countries. [Read now](#)
- Patient navigator programmes for children and adolescents with chronic diseases. [Read now](#)

Withdrawn Protocols:

- Antiviral therapy for congenital cytomegalovirus infection in neonates and infants up to 12 months of age. [Read now](#)
- Effect of exchange transfusion on mortality in neonates with septicemia. [Read now](#)
- Effect of pre-exchange albumin infusion on neonatal hyperbilirubinaemia and long-term developmental outcomes. [Read now](#)
- Exchange transfusion for neonatal jaundice. [Read now](#)
- Gastrografin for treatment of meconium obstruction in term and preterm infants. [Read now](#)

Health and Science News

- **Compelling case for nurse psychotherapists:** If access is simplified and nurses are part of the solution, the community will benefit, and the mental health system will improve. [Read more](#) [source: healthtimes.com.au]
- **The tangled history of mRNA vaccines:** Hundreds of scientists had worked on mRNA vaccines for decades before the coronavirus pandemic brought a breakthrough. [Read more](#) [source: nature.com]
- **PPE: coaching app to protect workers from breaches:** "The AI-PPE system is like having a second pair of eyes watching you and making sure you don't miss anything; it's very reassuring, particularly if you've done a 12-hour shift and you're really tired". [Read more](#) [source: hospitalhealth.com.au]
- **Long COVID symptoms in children rarely persist beyond 12 weeks:** Research brief also states after 10 months in circulation the Delta strain had not caused more serious disease in children than previous variants and most cases remained asymptomatic or mild. [Read more](#) [source: scimex.org]
- **'Knot and tuck' masks for better Covid protection:** Authors say previous research shows the masks typically filter 50-75 percent of particles, but a quick 'knot and tuck' increases that to 60-90 percent. [Read more](#) [source: scimex.org]
- **Nursing: a profession under "enormous stress":** Australian nurses cannot continue to work under the extreme pressure they are currently operating under — the impacts are mounting. [Read more](#) [source: hospitalhealth.com.au]
- **Test screening for leading infectious cause of hearing loss in babies feasible and well-received:** The research could pave the way for testing of congenital cytomegalovirus (cCMV) to be added to infant hearing screening programs across Australia. [Read more](#) [source: scimex.org]
- **Potential cause of neonatal strokes identified:** The research identified that a low number of platelets (small blood cells known for enabling clotting) in babies, either in the womb or in newborns, could cause bleeding in the brain. [Read more](#) [source: scimex.org]
- **New guide aims to improve care for children with cerebral palsy:** The guide notes that therapies should consider patient-chosen goals, provide support to empower families, and be based on a team approach. [Read more](#) [source: medicalxpress.com]
- **Coating spray uses 'nanoworms' to kill COVID-19:** The water-based coating uses worm-like structures to attack the virus and could serve as a barrier against transmission on surfaces and face masks. [Read more](#) [source: hospitalhealth.com.au]
- **Australian Research Council reverses new funding rule after widespread criticism:** Hundreds of researchers opposed the decision to ban preprint material from being cited in grant applications. [Read more](#) [source: theguardian.com]
- **Lung function in children, adolescents, and young adults after COVID-19 infection:** The team found that even patients with asthma did not show a statistically significant deterioration in lung function. [Read more](#) [source: scimex.org]
- **India's DNA COVID vaccine is a world first – more are coming:** It uses circular strands of DNA to prime the immune system against the virus SARS-CoV-2 and is administered into the skin without an injection. [Read more](#) [source: nature.com]
- **Cuba begins vaccinating children as young as 2:** Cuba faces a persistent COVID-19 outbreak that almost collapsed its health-care system. [Read more](#) [source: medicalxpress.com]
- **COVID-19 infections in Australian healthcare workers:** Researchers in Victoria performed state-wide SARS-CoV-2 genomic epidemiological investigations to recognize health care worker transmission dynamics. [Read more](#) [source: medicalxpress.com]
- **WATCH: Our mobile phones are covered in bacteria and viruses... and we never wash them:** We carry them everywhere (including the toilet) but they're rarely cleaned or sanitised, and we touch them with our hands many, many times per day. [Read more](#) [source: theconversation.com]
- **Our immune system is as unique as a fingerprint or our DNA:** The discovery could help explain why, for example, corona vaccines appear to be less effective for some people. [Read more](#) [source: medicalxpress.com]
- **Childhood obesity in U.S. accelerated during pandemic:** The rate of obesity increased most dramatically in kids ages 6 to 11. [Read more](#) [source: medicalxpress.com]
- **Study explores empowerment approach to reduce childhood obesity in Australia:** Overall, there are only 29 empowerment studies worldwide that focus on childhood weight management, none of them conducted in Australia. [Read more](#) [source: news-medical.net]

Library Update

ClinicalKey: updated clinical overviews

These [evidence-based summaries](#) cover a variety of topics which are updated monthly. Sources for the Clinical Overviews include journal articles, books, clinical practice guidelines, Cochrane reviews and more.

Some recently added or updated topics are:

- [Autism Spectrum Disorder](#)
- [Acetaminophen Toxicity](#)
- [Acute Myelogenous Leukemia](#)
- [Acute Otitis Media](#)
- [Allergic Rhinitis](#)
- [Asthma in Children](#)
- [Bacterial Gastroenteritis](#)
- [Chronic Suppurative Otitis Media](#)
- [Cystic Fibrosis](#)
- [Eczema and Atopic Dermatitis](#)
- [Endometriosis](#)
- [Febrile Seizures](#)
- [Impetigo](#)
- [Kawasaki Disease](#)
- [Lactose Intolerance](#)
- [Marfan Syndrome](#)
- [Mumps](#)
- [Migraine in Children](#)

Library Training: coming sessions

Improve your literature searching skills at the Library

If you can't make it to the scheduled sessions, [contact us](#) to arrange individual or group sessions at a time that suits you. Charges apply for some Library training.

[See the Library website](#) for full session details.

See our full list of [EndNote Tips](#) and [Database Search Tips](#), or our [Fact Sheets](#) for more in-depth information on searching or using Library services.

Ovid Embase reload

Embase via Ovid was updated in Sep 2021 and now reflects the latest edition of Emtree (Embase's thesaurus). Emtree is updated three times a year.

Emtree has grown by 1150 preferred terms (140 drug terms and 1010 non-drug terms) bringing the total of preferred terms to 90095. [See all changes in the thesaurus.](#)

In addition, Ovid has made the following changes to align with Ovid MEDLINE:

New Field:

KF - Author Keyword - word indexed

Changed Fields:

KW - Author Keyword - phrase indexed (previously was word indexed)

MP - will include KF instead of KW after the reload

Implications for Ovid Embase saved searches

- Check all your personal saved searches on Ovid Embase to apply changes for the latest Emtree to ensure the terms are optimised to your needs.
- Check the tree carefully for the *[Used for]* terms and date of entry.
- Replace all your keyword searches containing kw to kf, for example, if you have:
(prophylaxis or prophylactic).tw,**kw**,dq,hw.
change to:
(prophylaxis or prophylactic).tw,**kf**,dq,hw.

[Contact the Library](#) to get help adjusting your saved searches in Embase.

1000 Library Facts: #65

EndNote Tips on the Library website

If you are a [Library Update](#) subscriber you might already know that we regularly include short hints and tips on using EndNote. But you might not know we have compiled these tips [all in one place](#) on our website!

Isn't that nice to know?

Article titles are linked to full text where available, or to information about ordering documents. An [OpenAthens account](#) is required for remote access.

[Arrhythmias in children : a case based approach](#) / edited by Vincent C. Thomas. Springer, 2022.

Pediatric arrhythmias present numerous challenges to pediatric cardiologists and other practitioners who see pediatric patients, including pediatricians, family physicians, emergency physicians, residents, fellows, and other clinicians.

Arrhythmias in Children: A Case-Based Approach features practical methods for diagnosing and treating arrhythmias in these patients across all settings. Nearly three dozen real-world scenarios are presented, followed by a discussion of the diagnosis, clinical thinking process involved, treatment options, expected outcomes, and how to manage anticipated and unanticipated outcomes.

These practical, realistic cases provide a unique and engaging way of approaching these challenging patient scenarios.

[Atlas of minimally invasive techniques in upper gastrointestinal surgery](#) / edited by M. Asunción Acosta, Miguel A. Cuesta, Marcos Bruna. Springer, 2021.

This Atlas comprehensively covers minimally invasive operative techniques for benign and malignant cancer surgery of the esophagus and stomach. It provides easy-to-follow instructions accompanied by a range of pictures and illustrations, as well as a collection of

interactive videos to aid the reader in developing a deeper understanding of each surgical procedure.

Techniques covered include minimally invasive surgical treatment for esophageal and gastric cancer including different approaches such as thoracoscopic, transhiatal, laparoscopic, and robot-assisted resections. These chapters include different types of cervical and intrathoracic anastomoses after esophageal resections, and different anastomoses and reconstructions after gastrectomy.

Moreover, the Atlas includes an extensive description of minimally invasive procedures in bariatric surgery including sleeve resection, gastric bypass, biliopancreatic diversion, and others. Minimally invasive approaches for other benign pathologies such as benign tumors and treatment of gastroduodenal ulcer complications are also depicted.

All chapters, written by a renowned and experienced international group of surgeons and their teams, are

focused on practical step-by-step description of the techniques.

Atlas of Minimally Invasive Techniques in Upper Gastrointestinal Surgery systematically describes the most frequently performed surgical procedures of the esophagus and stomach and is a valuable resource for all practicing surgeons and trainee general surgeons dedicated to upper gastrointestinal surgery, such as bariatric and surgical oncologists.

[Atlas of neuromuscular diseases : a practical guideline](#) / by Eva L. Feldman ... [et al.]. 3rd ed. Springer, 2021.

This atlas offers a comprehensive overview of neuromuscular diseases. It discusses all aspects of neuromuscular disorders, including general tools, the cranial and spinal nerves, the nerve plexus, peripheral nerves, mono- and polyneuropathies, entrapment syndromes, the neuromuscular junction, motor neuron diseases, muscle disease, and autonomic involvement.

Each chapter is structured into the following sections: anatomy, symptoms, signs, pathogenesis, diagnosis and differential diagnosis, therapy, and prognosis.

The diagnostic tools used for neuromuscular disease are explained, and the therapeutic options for each disease are described. This updated third edition includes new chapters addressing a range of topics: from histology to molecular mechanisms, genetic aspects, the mechanisms of emerging new therapies, neuroimaging, neuromuscular disease, and new pathogenic mechanisms.

The book aims to be a useful companion for neuromuscular disease. The homogenous structure, illustrations with figures, and representative images makes the atlas easy to read and helpful in understanding neuromuscular problems.

[Breastfeeding : a guide for the medical profession](#) / Ruth A. Lawrence, Robert M. Lawrence. 9th ed. Elsevier, 2022.

Written and edited by leading physicians, Breastfeeding: A Guide for the Medical Profession, 9th Edition, offers comprehensive, dependable information and guidance in this multifaceted field.

Award-winning author and co-founder of the Academy of Breastfeeding Medicine, Dr. Ruth Lawrence, and her son, Dr. Rob Lawrence, ensure that

Library Update

you're brought fully up to date on everything from basic data on the anatomical, physiological, biochemical, nutritional, immunological, and psychological aspects of human lactation, to the problems of clinical management of breastfeeding—all in a highly readable, easily accessible desk reference.

[online]

[Emergency medicine secrets](#) / [edited by] Katherine M. Bakes ... [et al.]. 7th ed. Elsevier, 2022.

For more than 30 years, the highly regarded Secrets Series® has provided students and practitioners in all areas of health care with concise, focused, and engaging resources for quick reference and exam review.

Emergency Medicine Secrets, 7th Edition, offers practical, up-to-date coverage of the full range of essential topics in this dynamic field.

This highly regarded resource features the Secrets' popular question-and-answer format that also includes lists, tables, pearls, memory aids, and an easy-to-read style – making inquiry, reference, and review quick, easy, and enjoyable.

[online]

[Orthopedic physical assessment](#) / David J. Magee, Robert C. Manske. 7th ed. Elsevier Saunders, 2022.

Build your skills in the assessment of musculoskeletal pathology! Orthopedic Physical Assessment, 7th Edition covers the principles of assessment for all of the body's structures and joints, including topics such as gait, posture, the head and face, amputees, primary care, and sports emergencies.

The 7th edition offers additional functional assessment forms (e-tools), updated evidence-based reliability and validity tables, and hundreds of video clips demonstrating special tests on how to perform musculoskeletal assessment.

Written by noted PT educators David J. Magee and Robert C. Manske, this reference uses a systematic, evidence-based approach to prepare you for success in clinicals, board exams, and in rehabilitation practice.

[Principles and practice of movement disorders](#) / by Joseph Jankovic ... [et al.]. 3rd ed. Elsevier, 2022.

Offering a state-of-the-art, authoritative summary of the most relevant scientific and clinical advances in the field, Principles and Practice of Movement Disorders provides the expert guidance you need to diagnose and manage the full range of these challenging conditions.

Superb summary tables, a large video library, and a new, easy-to-navigate format help you find information quickly and apply it in your practice.

Based on the authors' popular Aspen Course of Movement Disorders in conjunction with the International Parkinson and Movement Disorder Society, this 3rd Edition is an indispensable resource for movement disorder specialists, general neurologists, and neurology residents.

[Smith's Recognizable patterns of human malformation](#) / Kenneth Lyons Jones, Marilyn C. Jones, Miguel Del Campo. 8th ed. Elsevier, 2022.

Long known as the go-to resource for superbly illustrated, up-to-date coverage in this complex field, Smith's Recognizable Patterns of Human Malformation, 8th Edition, provides a wealth of information on malformation syndromes of environmental and genetic etiology, recognizable

disorders of unknown cause, clinical approaches to specific diagnoses, and normal standards of measurement for the entire spectrum of disorders.

This award-winning reference is indispensable for clinicians in pediatrics, neonatology, family medicine, and genetics, as well as nurse practitioners and physician assistants—anyone who needs a complete, authoritative, and easy-to-read guide to help accurately diagnose human disorders, establish prognoses, and provide appropriate management and genetic counselling.
