

# Library Update

No.9, 2<sup>nd</sup> October, 2023

## EndNote 21 is here!

This update offers a number of benefits over older versions of EndNote, including: faster performance; more robust stability; improved accessibility; and easier customization.

Other features include:

- **A modern and user-friendly interface.** Also includes a number of new features that make it easier to find and manage your references, such as a new tags feature and **Improved compatibility and integration with other software.** Use *Cite While You Write* (CWYW) in Microsoft Word, Apple Pages, LibreOffice, and [Google Docs](#).
- **New features for collaboration.** It's easier to collaborate with other researchers on research projects. Share your libraries with others, and work on projects together in real time.
- **Better support for new citation styles.** These include APA 7th edition and Chicago-Turabian.

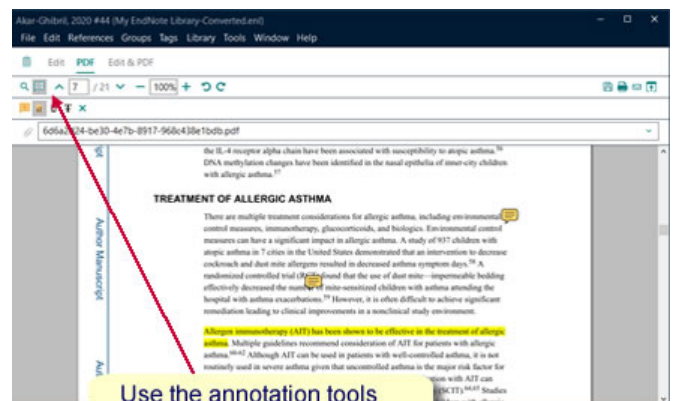

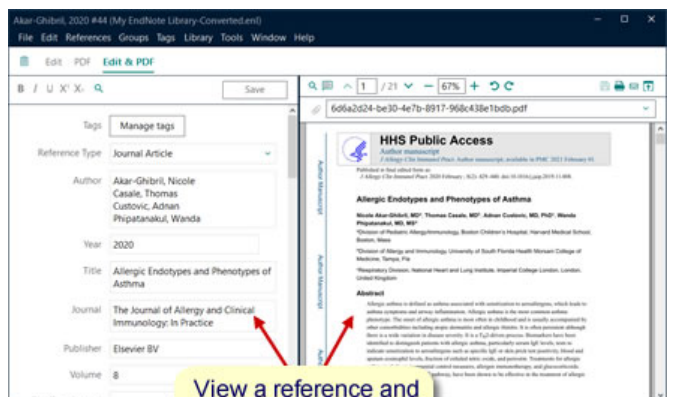

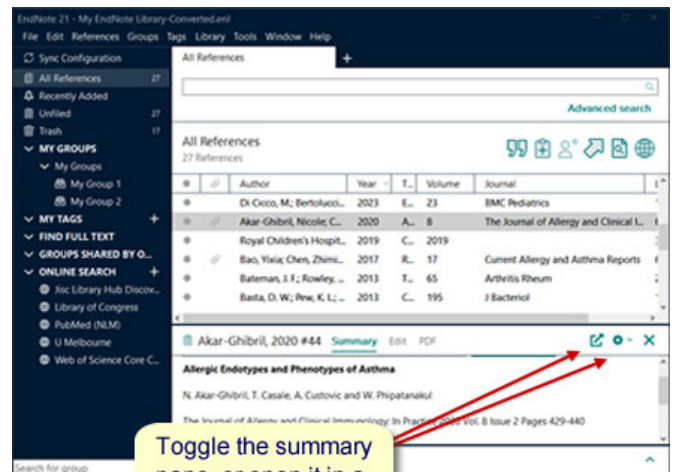

More specific benefits of upgrading include:

- **Layout options.** Toggle the summary/edit/PDF pane at the side or at the bottom of the window. Edit a reference in a separate window. View a reference and PDF side-by-side in a separate window.
- **Enhanced PDF Annotation:** You can highlight, annotate, and take notes directly within PDFs. This feature simplifies the process of organizing and reviewing research materials.
- **Data restoration functions.** New features help you to protect your work and recover from data loss. You can create backups of your library and restore it if it is accidentally corrupted.
- **Integrated document creation tools.** You can now insert references into your documents with a single click (using [EndNote Click](#)), and you can generate citations and bibliographies in a variety of styles.

## How to get it

You first must be a [Library member](#), then [contact the Library](#) to get the upgrade.

See [more info](#) about EndNote on the Library website.

# Library Update

## Featured podcast: Futuremakers

[Futuremakers](#) is back for a fourth season focusing on Brain and Mental Health

Listen to Oxford's award-winning podcast to hear experts talk to guests about the science behind the human brain and the wide-reaching impacts of mental health.

It follows on from the successful third series, The History of Pandemics, which covered ten major outbreaks from the Plague of Athens to the West African Ebola outbreak.

Topics covered in the current series include:

- [Supporting young people's mental health](#)
- [Workplace wellbeing and the evidence linking happiness and productivity](#)
- [Building resilient mental health in the workplace](#)
- [Maternal mental health](#)
- [Childhood and adolescent anxiety](#)
- [Brain injury and rehabilitation](#)

## Retractions Australia: highlighting scientific retractions in our region

[Retractions Australia](#) is an online resource dedicated to highlighting data regarding scientific retractions - the removal of published research papers from scientific journals.

This is presented via the Retractions Australia Explorer, which is an interactive tool that allows you to visualise and investigate retracted papers from Australian and New Zealander researchers and collaborators.

Retractions Australia uses data from [Retraction Watch](#), which has become a widely recognised resource for tracking and analysing retractions in the scientific community.

## Wellbeing and appreciation events

October 6	World Cerebral Palsy Day
October 10	World Mental Health Day
October 12	World Sight Day
October 14	Allied Health Professionals Day
October 15	Anti-Poverty Week
October 15	Global Handwashing Day
October 15	International Infection Prevention Week
October 15	National Carers Week
October 16	World Anaesthesia Day
October 16	World Food Day
October 17	Pharmacy Technician Day
October 20	World Evidence-Based Healthcare Day
October 21	Children's Week
October 22	International Lead Poisoning Prevention Week
October 23	International Open Access Week
October 24	World Polio Day
October 26	Intersex Awareness Day
October 26	Blue Knot Day

## Library Training: October sessions

Improve your literature searching skills at the Library

If you can't make it to the scheduled sessions, [contact us](#) to arrange individual or group sessions at a time that suits you. Charges apply for EndNote sessions only; all other Library training is free.

[See the Library website](#) for full session details.

Nursing & Allied Health.....	Wed 11 Oct, 2:00 pm
Cochrane Library .....	Wed 4 Oct, 2:30 pm
EndNote Tutorial 1 .....	Thu 5 Oct, 10:00 am
EndNote Tutorial 2 .....	Thu 12 Oct, 10:00 am
EndNote Demonstration.....	Fri 20 Oct, 12:00 pm
Finding the Evidence .....	Thu 19 Oct, 2:00 pm
Introduction to the Library .....	Mon 23 Oct, 11:15 am
Ovid Medline .....	Fri 13 Oct, 10:30 am
PubMed.....	Tue 31 Oct, 9:30 am

# Library Update

## PsycInfo via Ovid : APA thesaurus updated to 2023 edition

Changes include 76 new postable, 55 new nonpostable /cross-referenced terms and 76 revised scope notes now included in the fields of artificial intelligence, machine learning, neural networks, computer science, digital technology, psychotherapies, treatments, ethics, and research integrity.

View the [complete list of new and updated terms](#) (PDF).

### Implications for Ovid PsycInfo saved searches

- Check all your personal saved searches on Ovid PsycInfo to apply changes for the 2023 APA thesaurus. Add new terms and replace deleted terms with more up-to-date terminology.
- Check the Scope Note for each APA thesaurus term carefully for the definition, date of entry and historical note.

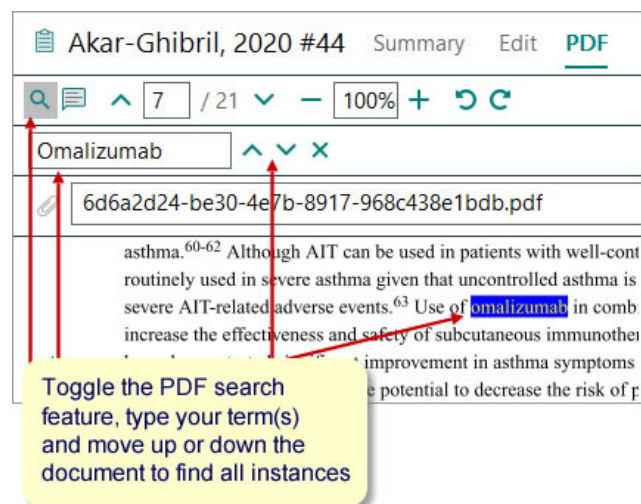

[Contact us](#) for help adjusting your saved searches.

## EndNote Tip: Search within PDFs

PDFs with machine readable text can be searched within EndNote once they have been attached to a reference.

Select the PDF tab from the Summary pane and then select the Search option. Type in your query and search the document using the up/down arrows.

See all [EndNote Tips](#) on the Library website.

The screenshot shows the EndNote interface for a PDF document titled 'Akar-Ghibril, 2020 #44'. The search bar contains 'Omalizumab'. Below the search bar, a list of search results is shown, with the first result being '6d6a2d24-be30-4e7b-8917-968c438e1bdb.pdf'. A yellow callout box with a red arrow points to the search bar and the search results, containing the text: 'Toggle the PDF search feature, type your term(s) and move up or down the document to find all instances'.

## AIHW: Australia's Welfare 2023, and other reports

[Australia's welfare 2023](#) is the AIHW's 16th biennial flagship welfare report. It explores topical welfare issues and brings together multiple data sources to serve as a report card on the welfare of Australians. Australia's welfare 2023 consists of 3 products:

- [Australia's welfare 2023: data insights](#) – a collection of 9 in-depth articles on selected welfare topics, including a focus on homelessness and housing affordability, employment and income support following the COVID-19 pandemic, and the importance of a strong evidence base for supporting the wellbeing of Australians.
- [Australia's welfare 2023: in brief](#) – presents key findings and concepts to tell the holistic story of welfare and wellbeing in Australia.
- [Australia's welfare topic summaries](#) – these 42 web pages present key information and statistics on housing, education and skills, employment and income, social support, justice and safety, and First Nations people.

### Cancer data in Australia

[This report](#) provides cancer statistics and data visualisations to inform understandings of cancer in Australia and how rates have been changing over time. The report includes statistics on cancer prevalence, survival, incidence, mortality and risk for many different cancers.

### Child protection Australia 2021–22: Safety of Children in Care

[The Child protection Australia report](#) was released on 6 June 2023. The update [Safety of children in care](#) (released 19 September 2023) presents data on the safety and abuse of children in care.

### Health of children

[This report](#) is part of a series of topic summaries that explores different health experiences across life stages, including young people, older Australians and all adults. This page focuses on key health issues that children face. Precise age ranges used for reporting the health of children varies between data sources according to different frameworks, policies and legislation, but generally includes early childhood and early adolescence.

### Health of young people

[This report](#) is part of a series of topic summaries that explores different health experiences across life stages, including children, older Australians and all adults. This page focuses on key health issues that adolescents and young adults face. Precise age ranges used for reporting the health of young people varies between data sources, but generally includes teenagers and young adults up to the age of 24.

# Library Update

## Cochrane Library: new items

### Access

Select *Cochrane Library* from the Library's list of [databases](#), and just start searching.

A registered login allows you to save search histories for future use. Go to *Advanced Search* to log in or register for an account.

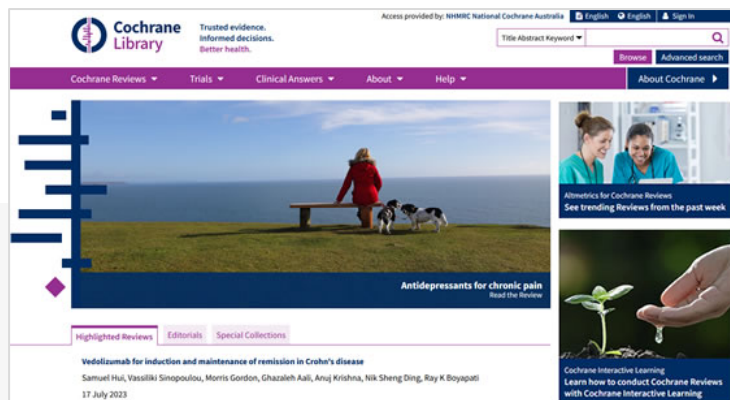

### Recently added items

#### Special Collections

- Cochrane at 30: what our 30th year can tell us about the future. [Read more](#)

#### New Cochrane Database of Systematic Reviews:

- Breastfeeding or breast milk for procedural pain in neonates. [Read more](#)
- Continuous positive airway pressure (CPAP) for apnoea of prematurity. [Read more](#)
- Early nasal intermittent positive pressure ventilation (NIPPV) versus early nasal continuous positive airway pressure (NCPAP) for preterm infants. [Read more](#)
- High flow nasal cannula for respiratory support in term infants. [Read more](#)
- Interventions for improving adherence to airway clearance treatment and exercise in people with cystic fibrosis. [Read more](#)
- Lay health workers in primary and community health care for maternal and child health: identification and treatment of wasting in children. [Read more](#)
- Monotherapy treatment of epilepsy in pregnancy: congenital malformation outcomes in the child. [Read more](#)
- Nasal intermittent positive pressure ventilation (NIPPV) versus nasal continuous positive airway pressure (NCPAP) for preterm neonates after extubation. [Read more](#)
- Paracetamol (acetaminophen) or non-steroidal anti-inflammatory drugs, alone or combined, for pain relief in acute otitis media in children. [Read more](#)
- Pharmacological pain and sedation interventions for the prevention of intraventricular hemorrhage in preterm infants on assisted ventilation - an overview of systematic reviews. [Read more](#)

- Pharmacological treatment of gastro-oesophageal reflux in children. [Read more](#)
- Probiotics to prevent necrotising enterocolitis in very preterm or very low birth weight infants. [Read more](#)
- Specific psychological therapies versus other therapies or no treatment for severe and enduring anorexia nervosa. [Read more](#)
- Sucrose analgesia for heel-lance procedures in neonates. [Read more](#)
- Vocabulary interventions for second language (L2) learners up to six years of age. [Read more](#)

#### Protocols:

- Acupuncture for neonatal abstinence syndrome in newborn infants. [Read more](#)
- Early versus late discontinuation of caffeine administration in preterm infants. [Read more](#)
- Invasive management for patent ductus arteriosus in preterm infants. [Read more](#)
- Interventions for improving adherence to amblyopia treatments in children. [Read more](#)
- Tenofovir for children and adults with chronic hepatitis B. [Read more](#)
- Tenofovir versus entecavir for children and adults with chronic hepatitis B. [Read more](#)
- Sucrose analgesia for venepuncture in neonates. [Read more](#)
- TB-LAMP (loop-mediated isothermal amplification) for diagnosing pulmonary tuberculosis in children. [Read more](#)

[Fact Sheet no.5: The Cochrane Library](#) | [Training at the Library](#) | [Contact the Library](#)

## Health and Science News

**Scientific sleuths spot dishonest ChatGPT use in papers:** Manuscripts that don't disclose AI assistance are slipping past peer reviewers. [[Nature](#)]

- **Children on puberty blockers saw mental health change - new analysis:** A re-analysis of a landmark study on puberty blockers now suggests 34% saw their mental health deteriorate, while 29% improved. [[BBC](#)]
- **Device for rapid Covid-19 breath testing:** The technology requires someone to breathe into it just once or twice, and it can then provide an indication if the person is infected with SARS-CoV-2 in as little as one minute. [[MedGadget](#)]
- **Ultrathin nanotech promises to help tackle antibiotic resistance:** A nano-thin superbug-killing material could one day be integrated into wound dressings and implants to prevent or heal bacterial infections. [[RMIT](#)]
- **The world's top melanoma pathologist has brain cancer. Can he save himself?:** From the moment of his diagnosis, Scolyer regarded his situation as a unique opportunity to do further -research into brain cancer. [[SMH](#)]
- **All eyes on medical A.I.:** The compelling evidence to change medical practice is wanting. But the transformative potential remains extraordinary. [[erictopol.substack.com](#)]
- **COVID-19's toll on children and young people:** A growing body of work is challenging the view that COVID-19 does not pose a significant threat to most children and young people. It comes amid growing concerns that there could be long-term implications for some young people who have contracted the virus. [[Croakey](#)]
- **Inside the race to stop a deadly viral outbreak in India:** A confluence of climate change, urbanization, deforestation, and altered human migration, in some cases driven by political instability, have come together to create a perfect storm that makes spillover events more common. [[ArsTechnica](#)]
- **Sixty seconds on . . . movie credits:** It's been proposed that journals should move away from "authorship" altogether, instead listing researchers as "contributors" in "movie-style credits" at the end of a published paper. [[BMJ](#)]
- **How can I support my colleague returning to work with long covid?:** The best way you can support your colleagues is to do three things: listen, empathise, and offer appropriate support. [[BMJ](#)]
- **World Health Statistics 2023:** The WHO's annual compilation of the most recent available data on health and health-related indicators. [[WHO](#)]
- **The new normal in body temperature:** We can do a lot better than just measuring a ton of people and taking the average, because we have statistics. [[Medscape](#)]
- **Titanium micro-spikes skewer resistant superbugs:** A new study suggests rough surfaces inspired by the bacteria-killing spikes on insect wings may be more effective at combatting drug-resistant superbugs, including fungus, than previously understood. [[RMIT](#)]
- **Music may reduce babies' pain during jabs or heel-prick tests, study suggests:** Newborns suffered less pain during heel-prick blood tests if they heard a Mozart lullaby, researchers report. [[The Guardian](#)]
- **WHO 'concerned' about covid increase in northern hemisphere:** "The virus is currently reinfesting large numbers of individuals, millions of people, every week". [[Medscape](#)]
- **Medical AI chatbots: are they safe to talk to patients?:** Artificial intelligence chatbots based on large language models can pass medical exams but their diagnoses are often inaccurate. [[Nature](#)]
- **Having the courage to explain research in plain language:** The 'Curse of Knowledge' means that we overestimate how well we can convey information. Many of us in scholarly communications are exposed to its symptoms on a regular basis. [[The Scholarly Kitchen](#)]
- **Hope for sick children requiring medication via an intravenous catheter:** Midline catheters for the win. [[Scimex](#)]
- **Covid hunters:** The amateur sleuths tracking the virus and its variants. [[The Guardian](#)]
- **Practising mindfulness can help rewire the brains of anxious pre-teens:** "Practising mindfulness can help children change their focus from worrying thoughts and help them to improve their attention to their current experience." [[Scimex](#)]

## BOOKS

[online]

[Atlas of clinical sleep medicine](#) / [edited by] Meir H. Kryger, Alon Y. Avidan, Cathy Goldstein. 3<sup>rd</sup> ed. Elsevier, 2024

Easy to read and richly illustrated, this book provides the tools you need to accurately diagnose and treat the full range of adult and pediatric sleep disorders. It details the physiologic, clinical, morphologic, and investigational aspects of the sleep disorders encountered in everyday practice. This highly regarded, award-winning atlas is an ideal resource for sleep practitioners and technicians in the lab.

[online]

[Ferri's Clinical advisor 2024](#) / [edited by] Fred F. Ferri. Elsevier, 2024

A bestselling title year after year, this popular reference delivers vast amounts of information in a user-friendly manner. It is updated annually to provide current and clinically relevant answers on over 1,000 common medical conditions, including diseases and disorders, differential diagnoses, clinical algorithms, laboratory tests, and clinical practice guidelines—all carefully reviewed by experts in key clinical fields. Extensive algorithms, along with hundreds of high-quality photographs, illustrations, diagrams, and tables, ensure that you stay current with today's medical practice.

[Perineal reconstruction: principles and practice](#) / edited by Damir Kosutic. Springer, 2023

This book presents a comprehensive overview of available surgical techniques for complex perineal reconstruction. Employing a multi-disciplinary approach, it provides valuable insights into the resectional aspects of this field, considerations in multiple organ removal, and the inclusion of radiology in preoperative planning for complex reconstructions, as well as anaesthetic aspects in perioperative patient care. It offers step-by-step descriptions of reconstructive options and detailed information on perineal and pelvic defects, together with insights into surgical execution, indications, and common complications and pitfalls encountered when dealing with this challenging defect.
